If yes, complete the following calculation:

- 1. Total net income from self-employment for all years being averaged i.e. total of line 10 amounts for all years being averaged.... _____

Treatment of self-employment losses

If the result of averaging the self-employment income is a loss, if the self-employment activity is not a hobby, and if there is other income not related to the self-employment activity that produced the loss, the self-employment loss may be used to reduce the other income in certain circumstances. If applicable, complete either Section 1 or Section 2 to determine if self-employment losses may be used to reduce other income.
